beaten yesterday. The Jockey Club managed to win from the Websterites 3 up in a seven-man-a-side match.

The match was played in the merning, for with horse racing holding the field in the afternoon, golf has got to take its chance and do the best it can. It was awfully early to get people up to play golf, for the time of starting was \$25. The Algonquins had to get up in the middle of the night to keep the date. Mayhap that explains their defeat, the first in two years. In every single case the matches were close. Though but two Algonquins won their matches, Mr. Thompson and the Annan, the club was beaten but 3 down.

The match of the day was between Professional Johnson of the Jockey Club and Mr. H. P. McKinnie of the Algonquins. In the first round Johnson had some frightful fortune, so he asserted afterwards. Anyhow he was 5 down and 3 to play. It looked all of several days with him. But the man pulted himself together and finished 2 up. Mr. McKinnie did not win a single noise on the in trip, and halved but 2. Mr. Adams was not all himself and playel carelessly. In a nine hole round after the match he did eight fours, but lost a record by going into the deep bunker in front of No. 2. At that he made a thirty-eight. Another singular thing was that in the in trip of his match he did every one of the nine holes, varying in distance from 69 to 460 yards. In five each, Then he went out and did eight holes in four each.

Mr. Annan proved a tartar to Captain Price, but the military man gave him a game worth having. Mesers, McCreery and Thompson got the holes. Both Dector Pittman and Mr. Hachmeister were very much off their game. After a nip and tuck struggle the Jockey Club man won, one up. Mr. Keehler did some pretty work beating Mr.

Web Davis May Yet Be a Factor-Powell Clayton in Washington -Work of Congressional Committees.

The Republic Eureau, 14th St. and Pennsylvania Ave. Washington, June 11.-Powell Clayton, Minister to Mexico, reached Washington this morning and will attend the meeting Philadelphia Wednesday. Minister Cizyton registered at the Arlington early this morning, and during the day visited the President and the Secretary of State. He denied himself to reporters and could not be interviewed as to the matters Arkansas will present to the National Committee, or his choice for Vice President. He will go tonorrow evening to Philadelphia.

Speaker Henderson departed this evening for advance work with the early arriving delegates. Dolliver's boomers claim that the Speaker is committed to his interests for Vice President, but there are many shrewd politicians who doubt this. They Insist that General Henderson's interests are not in securing Dolliver's nomination for the second place. They hold that Dolliver's election to the vice presidency would endanger the Speaker's chances for renomination and give many Republican bolters in the House an opportunity to desert him for another candidate, on the ground that the presiding officers of both houses could not ome from the same State.

In fact, the Dolliver movement has taken such strong and tangible shape that his sup-porters are consident he will win beyond a doubt, even with strong opposition from any quarter. Dolliver himself has begun to any quarter. Dolliver himself has begun to realize the importance of the movement in his behalf, and is helping it along. He will open headquarters in Philadelphia this week, and his ardent supporters will immediately begin an active canvass in his behalf. A great deal of work has already been done by correspondence among the different delegations, but the heart-to-heart talks with delegates in support of Dolliver will commence as soon as the delegates arwill commence as soon as the delegates ar-

The Democratic Congressional Committee headquarters at the Metropolitan Hotel, this city, will be the office of distribution for literature both for the Congressional Committee and for the National Committee, whether the latter organization decides, after the Kansas City Convention to locate in Chicago, New York or Washington. This is to avoid a dupilication of work. Plans are being made, therefore, for sending out carloads of trust documents. In the same way the literary branch of the Republican Congressional Committee is to dispatch large quantities of trust literature to localities where it can do the most good.

Secretary Dick of the National Committee has aiready selected several trust speeches for campaign circulation. He has himself made a contribution to the subject by a speech relating to trusts in England. The purpose of this is evident. Mr. Dick's speech tries to make it plain to the unsuphishicated that trusts have dourished in free trade England more than in the United states, where a protective tariff has prevailed.

Ohio Democrats Want the Admiral on the Ticket With Bryan. Columbus, O., June 11.-The Democratic State Convention will be held here to-morrow. It was at one time proposed to hold the convention last week while Admiral Dowey was here, but several of the sub scribers to the Dewey fund objected and the plan was abandoned. The Dewey decorations, exterior and interior, however, still remain all over the city. The hotels have arge portraits of Dewey displayed, and sone of the Democratic heroes except

Lean does not expect to return in time to attend the Kansas City convention. He would be placed at the bead of the Ohio delegation if he would give his consent, but

There is a movement to have the Democratic headquarters located in Columbus with a view to "giving Chairman Hanna ail he wants to lock after at home." The delegates claim they could carry their Ohlo State ticket with Bryan and Dewey and elect a majority of the Congressmen.

Those who propose the combination of Bryan and Dewey believe there is no doubt about the Admiral accepting. There is some diversity of opinion as to whether this convention should take the initial step in indersing Dewey for the national ticket.

The officers to be nominated in to-morrow's convention are: Secretary of State, Dairy and Food Commissioner, member of the Board of Public Works, and Justice of the State Supreme Court. For each of these nominations there are several candidates. Four delegates-at-large to Kansas City will be also selected. ANOTHER POSTPONEMENT — The Meler investigation came up in Mayor Ziegenhein's office yesterday for what was to have been a final session, but Judge Krum, attorney for the Supply Commissioner, was unable to be present, having duties to attend to as a member of the posse comitatus, and the investigation was continued until next Monday afternoon at 3 o'clock. City Counselor Schnurmacher stated that he did not want a continuance, but that it was only courtesy to Judge Krum to postpone the investigation until he could be present. The Deputy Marshal, who was requested to make a final effort to get service on a certain witness who is wanted by the City Counselor, reported that he had been unable to find that witness, and was told that he might have another week in which to find him. It is understood among three who are interested in the Meler investigation will be the final one.

IN THE COUNTY.

Buffalo, N. Y., June II.—Torture that may prove fatal was inflicted on Minnie Duffer in a lodging-house in Elm street by her angry lover, John Duke. She was found at noon to-day in the greatest agony in her bed, where acid had been burning its way into her fiesh since Saturday night. The acid had burned so deep into her fiesh that recovery seems impossible.

aSturday evening Duke went to the Duffer woman's room, but she refused to admit him. He went away, but returned, gained an entrance, beat her almost innensible and poured acid on her breast and stomach. He remained in the room until noon to-day, refusing to summon sid, choking her when she attempted to cry out, and stupefying her as best he could with drugged whisky. When he departed this noon she called for help and was taken to the hospital. —A marriage license was issued at Clayton yesterday to Joseph F. Schonnacker of No. 255 Rutger street and Miss Adele M.
